

## Parent Survey November 2024

Thank you for all your ideas and suggestions on how to improve our school. Below I have answered many of your suggestions and shared with you those I am continuing to work on.

<b>Your suggestions</b>	<b>Our improvements</b>
Improvement in contact with the SENDCo and information regarding your child's progress.	Many of you have commented that we are prioritising SEND provision in our school. This term we have prioritised applying for EHCP, reviewing our assess, plan, do review, approach by adding in IEP's and supporting adaptive teaching techniques. We are developing a Sensory room, calm space and small teaching classroom in our newly designed SEND intervention space. Mrs Slater has joined a Warwickshire task force with SENDAR to create a bank of key materials for schools.
Reception parents to be more aware of their daily activities and to share in their learning.	We have bought a new See-saw app where we can share your children's learning and you can contribute to your child's learning through the app.
Better communication	We have a weekly newsletter, in which we endeavour to include all aspects of the following week and share aspects of your child's learning.
Noticing quiet children and recognition for good behaviour and achievements.	Celebration assemblies will commence in spring term to share school and home achievements. We have adapted our Good Relationships and Behaviour policy to include the Nurture, perform succeed awards and the HT Merit award which will be drawn every term.
Sport- playing more fixtures, introducing a netball team and staff building resilience in sport.	We have chosen this year to be part of Warwick and Leamington fixtures and we are always looking to extend this to further sports. We have asked for your support with transport as this is often our barrier to competing at more fixtures. We asked our current Year 6 to choose between netball and football. However, we are opting to take our children to the netball festival. All teachers teach 1 PE lesson each week using Real PE, alongside our PE coach.

	Each term we have introduced an Inter-house competition that we are using to build competitiveness and resilience. Our sports day aims to be an inclusive and fun event.
Better range of clubs and after school provision	We have introduced coding clubs, rocksteady music band and musical theatre and drama. We will continue to develop this area over the coming year.
Friendship building and anti-bullying	We bought Jigsaw PSHE scheme which has a greater emphasis on learning about friendships in every year group. We use Parenting project "building friends" to support specific children or groups of children. This is an area we recognise our children need further support with and we will continue to improve this area of our curriculum. Our anti-bullying ambassadors have created a display to promote themselves and are canvassing opinions on where to improve next on 13 <sup>th</sup> January assembly.
Supporting parents in Year 5 and Year 6 with homework.	We will have an evening event where parents can access our KS2 team and use their wealth of knowledge to support you with homework.
Creating a community spirit	We have succeeded in receiving a Councillor grant to create a piece of artwork, titled "Isolation and Diversity". We would like to use this and other initiatives such as singing at the care homes to extend our links with our community.
