Year 2 – Summer 1

Science

The scientific skills taught in this topic:

Asking questions, making predictions, carrying out simple tests, observing and measuring, interpreting and communicating results, recording data and evaluating tests.

Objectives:

Observe and describe how seeds and bulbs grow into mature plants.

Find out and describe how plants need water, light and suitable temperatures to grow and stay healthy.

Our scientific questions are:

Do all plants need soil to grow?

Do green plants need light, warmth, and water to grow?

History

To know that a timeline shows the order events in the past happened

To know that changes may come about because of improvements in technology.

To know some achievements and discoveries of significant individuals such as Bessie Coleman.

To use evidence and sources to find historical information.

To understand why the moon landing was special.
